EDUCATION

Chinese University of Hong Kong, Shenzhen

Shenzhen, Guangdong

Bachelor's Degree, School of Medicine, Bioinformatics

September 2023 - Present

- Major GPA: 3.91/4.00 | Cumulative GPA: 3.69/4.00
- 2024-2025 Academic Performance Scholarship of CUHK(SZ)
- 2024-2025, 2025-2026 MED Dean's List

PROFESSIONAL EXPERIENCE

Bioinformatic Laboratory Assistant, Prof Peng He's Laboratory

January 2026 – Present

University of California, Berkeley

Research Topic: Hunting for Rare Cell Types in the Human Body Through Integrated Cell Atlases

- Implements clustering and annotation workflows (Leiden, CellTypist), identifying >10 rare cell populations of kidney tumor and refining cell-type resolution across datasets through doing literature review.

Bioinformatics Laboratory Assistant, Prof Yuanyuan Yao's Laboratory

May 2025 – Aug 2025

Shenzhen Institute of Medical Science

Research Topic: Single-Cell Transcriptomic Profiling of Intracardiac Ganglia in CHAT Mice

- Investigated the effects of sleep deprivation (SD) on the cardiac neuro-immune microenvironment.
- Explored intercellular communication between intracardiac neurons (ICNs) and surrounding cells.
- Developed approaches to remove hemoglobin contamination from fresh tissue single-cell datasets.

Biology Laboratory Assistant, Prof. Jihang Chen's Laboratory

January 2024 – January 2025

Chinese University of Hong Kong, Shenzhen, Guangdong

Research Topic: Synergistic Enhancement of Anti-T2DM Effects via Separation and Sustained Release of Coptis Alkaloids Based on Phenolic-Formaldehyde Aerogel

- Contributed to protein immunoblotting (WB) and alkaloid extraction from Coptis Chinensis, improving separation efficiency by 15%.
- Independently performed detailed hepatocyte imaging and analysis on mouse liver cells, uncovering key cellular responses to the treatment.
- Conducted and summarized scientific literature reviews on Coptis Alkaloids and Phenolic-Formaldehyde Aerogels with scientific acumen, providing timely updates to support ongoing research.

Undergraduate Student Teaching Fellows (USTF) September 2024 – December 2024, September 2025 – December 2025

Chinese University of Hong Kong, Shenzhen, Guangdong

- Delivered fundamental Python instruction to 300+ undergraduate students enrolled in Introduction to Computer Science.
- Provided academic support through in-person office hours and responsive email consultations.
- Enhanced students' understanding of basic python programming concepts and problem-solving skills.

ACADEMIC PAPERS

Y. Tong, J. Luo, Y. Chi, X. Cui, J. Zhang, H. Wang, F. Yao. Identification of Diagnostic Blood Indicators Associated with Adenomyosis: A Retrospective Cohort Study. (Under Review)

PROJECTS

Business Strategy Case Study (MGT4020)

- Analyzed market entry strategy for Estée Lauder in China, evaluating consumer trends, pricing, and competitive landscape.
- Applied frameworks (SWOT, Porter's Five Forces) to identify growth opportunities and brand positioning strategies.
- Developed recommendations on product positioning and digital marketing strategy, presenting structured insights in a team setting.

LEADERSHIP EXPERIENCE/ OTHER ACHIEVEMENTS

University Student Assistant *Event Assistant & New Media Assistant* Sep 2023 - May 2024

- **Event Organization:** Assisted in planning and executing major college events, including the alumni homecoming fair, Christmas tree lighting ceremony, and wine appreciation event; participated in the recording and editing of a New Year dialect blessing video.
- **Daily Operations:** Contributed to writing and editing event articles, managing WeChat public account content, and operating the college's official WeChat and Video Accounts across five key areas: copywriting, photography, video production, layout design, and poster creation.
- **Magazine Editing:** Assisted in editing the college's monthly magazine and contributed photography works.

Management Team Member, Bioinformatics Institute November 2023 – November 2024

- Coordinated campus science outreach activities and bioinformatics lectures with an audience of 100+ students.
- Designed and purchased materials and refreshments, and collaborated with guest speakers, ensuring smooth event execution.
- Contributed to maintaining the society's official WeChat account, produced 5+ articles on bioinformatics topics.

ADDITIONAL INFORMATION

Language: Native Mandarin, Proficient English (Fully English-taught courses), CET-4, CET-6

Technical Skills:

- **Programming & Tools:** Python, R, Linux, Microsoft Office (Word, Excel, PowerPoint, Outlook)
- **Scientific Design & Media:** PowerPoint (advanced), Photoshop, Premiere Pro
- **Bioinformatics Tools:** PyMOL, VMD, Chimera, Avogadro, Gromacs

Interest: Traveling, Swimming and badminton, Photography, Movies & Variety Shows, Music
